He's took the Stand—on Gardner's ground—

He has re-modled this interer,
And made it now a splendid room.
'Tis a place of the resort
Where Lager's drank, of sparkling sort;
Here Patrons can, with ease retire,
And "Pete" will them, with Bier inspire—
Or sell them all a dinner, sure,
Or Lunch, that's wholesome, good and pure—
"Pete" is a clever man, with all,
Though often high he looks, and tall,
He will respect, to Patrons pay,
Or treat them all in friendly way!
With sparkling Lager by your side,
This world of sin, you would deride
And in your senses soul could say,
Bright Lager puts to healthy way!

WIT AND HUMOR.

You win a woman by appealing to her impulse—you win a man by appealing to his interests. It is all the difference between a compliment and a bribe.

A violent partisan editor complains bitterly that his opponents are scurrilous. As well might Satan, when the good angels as described by Milton, were hurling the hills and mountains upon him and his confederates, have cried out indignantly, "You are throwing dirt, gentlemen."

The idle levy a very heavy tax upon the industrious, when by frivolous visitations they rob them of their time. Rank persons beg their daily happiness from door to door, as beggars their daily bread, and like them, sometimes meet with a rebuff.

[From the Union Morning Herald, Jan. 15, 1856.]

Benjamin E. Walker, of Madison, in the midst of a remarkable cure of disease of the eyelids had been seriously affected for six months or more, and the remedies applied benefited him not at all. He called on Dr. Lighthill, of this city, who effected a complete cure by a single prescription. Mr. Walker appreciates the remarkable cure so quickly effected, and desires to do justice to Dr. Lighthill by this public acknowledgment.

[From the Syracuse Journal, Sept. 16, 1858.]

We learn that Dr. Lighthill, assisted by Dr. Paine, has performed an operation for the cure of cross-eyes upon the eyes of Miss Julia C. Hankins, of Truxton, Cortland county, with perfect success. Truly; the knowledge of that science which overcomes such formidable difficulties connected with this tender and useful organ, should be hailed with respect by those who are momentarily liable to the injury, as it is with joy by those who have experienced salutary blessings. 320tf

Be of Good Cheer.

We have had a plentiful rain—warm, and refreshing to the earth—which will be apt to stimulate and renew her energies in yielding to the husbandman what portion of the pinched and frost bitten products are not entirely killed. The grass already begins to revive, and the young corn, that has escaped the freezing fingers of Jack Frost, looks like giving promise of growing to maturity. Potatoes generally, will come to—though many fields are being planted over again; and so also of the corn.

The *fruit*, much of it, is cut off—but not so very generally as was first apprehended. There are quite a number of localities where the frost forgot to lay his deathly fingers on the young apples and infant cherries. Though in all conscience he was busy enough; and silently but surely laid his icy hands, with destroying intent, upon many of the "first born" herbage of the year, which were gladdening the hearts of many of our rural citizens, and filling their expectations with hopes and promises of a plenty of garden sauce, to deck their tables and make healthful and voluptuous their daily repasts. "But all is well that ends well," and this improvident dispensation, is only to rouse us all to *fresh and renewed efforts*, with our disappointments, as an experience guide, teaching us that earthly hopes will perish—and that "there is nothing sure but Heaven."

On Saturday evening a lady named Davis, while partaking of some refreshments in a saloon in William street, New York, in company with her husband, was shot in the back of her neck by a bullet from an air gun, fired from an upper story of the Globe Hotel by a man named Wilson, who was firing for amusement at the gas lamps in the street. The ball was successfully extracted from the neck of the lady, but so near was she to being killed by the bullet, that had it entered the neck half an inch farther to the right, death would have instantly occurred.

WOMAN LOST.—We learn from the Daily Niagara Falls Gazette, that a Miss Electa M. Johnson went on to Goat Island on the 5th inst, but has not returned. Diligent search has been made, but no such person can be found. Another mystery.

The Lyons, Wayne county, Pennsylvania, that Michael Okliffe, a lad aged fourteen years, died in that place on Sunday last, from the immediate effects of bathing.—Some few days since he stepped upon the point of a nail which penetrated his foot, and while bathing shortly after was attacked with cramp which terminated in lockjaw.

GERMAN SYMPATHY FOR AUSTRIA.—The Evening Post represents that German merchants of that city are in possession of private advices which render it certain that Prussia and all Germany will immediately join Austria in her struggle with France. These advices, it is asserted, are from persons in the confidence of the government, and are regarded as trustworthy. Perhaps it is largely due their traditional hatred of the Bonaparts, that the sympathy of the Germans in behalf of Austria seems to be general and cordial. As an instance, one of them, a young and wealthy merchant, has already made arrangements to go by the next steamer, and enlist in the service. He says his family were massacred by Napoleon I., and he will have his revenge upon his successor.

Mr. Dempster declined to pay a $10 license in Detroit the other day, for the privilege of giving a concert, and therefore gave a free concert, which was largely attended. A deputy marshal ordered Mr. Dempster to desist, when the audience sided with the vocalist, and the officer left the Hall. Some excitement was occasioned, and during the confusion the gentlemen in the room rushed up and bought an unlimited amount of Mr. Dempster's tunes, probably by way of remunerating him and showing their zeal in the cause. By unanimous request he then went on and finished the concert.

CONCORD, N. H., June 13.

A destructive fire occurred in this city last night, totally consuming the old Congregational Church, Norris bakery and five dwelling houses. Several other buildings were damaged, including the Masonic Temple.

The church organ and bell were valued at $11,000. No insurance. Norris' loss $5,000—mostly insured. Totall loss $20,000.

BOSTON, June 18

Six dwellings, occupied by Irish and colored people, and four stables on North Grove street, were destroyed by fire last night. They were all small buildings.

A fire in Lowell yesterday destroyed the steam saw mill of A. L. Brooks, on Western avenue, and the building adjoining owned by Horace Fletcher. Loss $10,000.

The frigate Constellation, at the Navy Yard, was put in commission to-day and her crew taken on board. Lieut. McDonough is acting commander.

The Emperor of Russia has presented to Mrs. Hudson, a diamond brooch valued at $5000, in acknowledgment of the courtesies extend by Capt. Hudson when in command of the Niagara to some Russian officials while he was laying the Atlantic cable.

ST. JOHNS, June 13

The exact amount of injury to the Edinburg, is yet unknown. A diving apparatus was only available to-day, and the report cannot be fully depended upon.—The ship cannot be repaired here and labor is scarce. The progress of the work will be slow.

The cargo will all be discharged, except that in the after hole, which will lighten the ship to twelve feet draught, when it is thought the injury can easily be got at. The repairs will probably take from three weeks to a month.

NEW YORK, June 13.

The Washington correspondent of the Commercial hints that Hon. John Slidell has been appointed Minister to France.

A Frog in the Stomach three Years.

A son of Mr. Charles Davis, residing in Gould's Court, leading from Montgomery, near Light street, has caused the family great uneasiness for three years past, in consequence of his being subject at times, for hours together, to spasms and terrible fits. Physicians were consulted, but all their investigations failed to reveal the causes that produced the malady. Yesterday afternoon, about three o'clock, when entering the house, the lad was seized with the symptoms of his malady, and in a fit of vomiting, threw up upon the floor a live frog, about two inches in length.—The frog hopped gaily about the floor until secured by the family. Instant relief was experienced by the lad. His name is William Davis, and he is about ten years of age. He has no recollection of the time the frog was taken into the stomach, but his father thinks it was swallowed with his drink, about three years ago, when he was first afflicted with fits.—*Baltimore Sun.*

A French Magistrate, noted for his love of the pleasure of the table, speaking one day to a friend, said: "We have just been eating a superb turkey; it was excellent, stuffed to the neck, tender delicate, and of a high flavor. We left only the bones." "How many of you were there?" said his friend. "Two," replied the Magistrate, "the turkey and myself."

The Buffalo Commercial says that on Thursday last a little boy, four years old, named Mahoney, while playing on the bank of the river, below White's pleasure grounds at the Falls, fell over a nearly perpendicular, height of one hundred feet. Strange to say his severe injury was a broken shoulder. The little fellow was able to get up and walk.

A case occurred last week out West which proves that the "ruling passion" is so strong in a railroad smash-up, as in death itself. An excursion train went from Chicago to Cincinnati and was thrown off the track. Among those taken from the wreck, was a young lady badly injured. On recovering her senses the second question she asked was "Is my husband safe?"—the first having been, "Where is my bonnet?"

A Boston paper states that of nine hundred and fifty-three clergymen attending the late anniversaries in that city, but seventy-three wore the professional badge, the white cravat. The growth of hair on the faces of many of the divines, was another sign that they are willing to stand as men among men, and to find their appropriate distinctions in something of more consequence than peculiarities of costume.

Under the late assessment for taxation in the State of Indiana, the valuations have risen from about $400,000,000 to between 6 and 700,000,000. This, under the present rate of taxation, will produce a large revenue. The assessments prior to this last were made seven years ago.—The increase has been much greater than was anticipated.

NEWS SUMMARY

—A bill is now before the New Hampshire Legislature to prohibit the change of text books in the public schools of that State, oftener than once in five years.

—In the columns of the *N. Y. Evening Post* is an advertisement from the Clerk of the Police Commissioners, offering stolen and unclaim'd for property at auction. Among other things is a horse, which was taken from the pocket of a man.

—A complimentary dinner was recently given by the Liverpool pilots to John F. Clark a New York pilot, who took the Africa out on her last trip, and in consequence of a strong northeast gale could not be hauled, but was obliged to proceed to England.

—The people of St. Joseph, Mo., having built two *theatres*, are now thinking of building a *church!*

—The editor of a leading German paper at St. Louis has gone to Europe, and the seat of the war, to report the campaign for his paper, which supports the side of Italy and France.

—The Emperor of the French, says a correspondent of the Saint Public of Lyons, has given King Victor Emanuel proof of his high esteem by confiding to his command a corps of the French army, which will form the left wing, the Emperor himself commanding the right.

—A man was found lying in one of the public streets in Norwalk, one day last week, with tombstones at his head and feet. It was discovered that he was dead drunk, and some wag had erected those monuments to the memory of departed sinfulness.

—The Charleston Courier learns that Alonzo J. White, Esq., has negotiated a loan for the State of Florida, of $200,000 on very favorable terms. This, the Courier remarks, will enable this growing young State to pay her "Seminole War" debt.

—Frances D. Murray, who had been recently divorced from a worthless husband, rang herself in Detroit Wednesday.

—The Legislature of Rhode Island adjourned on Monday last, after session of four days, and the passage of four public acts.

—The Executive Committee of the American party in Georgia have issued an address, in which they declare the party without a national existence, and the uselessness of longer trying to maintain such an organization.

—One of the Boston Knight Templars, who went to Virginia, bought a negro man for $600 for a free colored woman in Boston, who furnished the money and is to marry him.

THE Washington correspondent of the New York Daily Times writes thus:—"Lord and Lady Napier are now in London. His lordship writes that the impression in London is that Germany will soon be involved in the war, and with Germany, all Europe. The German Government are opposed to interference, but the excitement among the people is so wild that it cannot be checked. An army will march to the Rhine, he thinks, at an early day. This necessarily involves England in the fight.

On the 2d inst. a severe thunder storm passed over Pottsville, Pa., and a vivid flash of lightning, accompanied with a crashing peal of thunder, so shocked Mrs. George W. Potts, who was standing in the doorway, that she fell back and died.

HORSE RAILROAD IN ST. LOUIS.—It is but only a few days since the project of a horse railroad was started in St. Louis, and, already, they have three chartered companies at work. One company running over five miles of the principal streets, are manufacturing the cars in that city, and will have sixteen cars running by the 25th of July. As yet not a tie has been laid. This will be doing things up with a rush. The cross ties and sills will be ready in ten days, as, also the blocks for paving. Five hundred men are to be put on the work in different sections and the road built in fifteen days!!

MRS. MCCULLOCH, a lady of Port Dalhousie, C. W., committed suicide one night last week after quarreling with her husband. She refused to sleep in the same bed with him, but insisted on going to bed with an unmarried daughter who lived with them in the house. During the night she got out of bed, entered her husband's bedroom, and said a few angry words to him. She then left his bed-room, as he supposed, to return to her daughter's apartment; but early in the morning she was found a corpse on the floor of another room, with a small vial at her side, which apparently contained some poisonous substance.

"A RARE CHANCE," INDEED.—There is a splendid "opening" over in Canada just now for some enterprising "States" man who have no scruples of conscience against using borrowed capital at as low a rate of interest as six per cent. The Hamilton Banner says the Town Council of Brantford, at a meeting on Monday, came to the unanimous but extraordinary conclusion, that they will "loan three companies who will start three good Factories in Brantford, the sum of £40,000 for 21 years—the said company to pay 6 per cent. per annum interest, and two per cent. sinking fund."

A young lady in Philadelphia recently stepped on a rusty nail, which ran through her shoe into her foot. The inflammation and pain were very great, and lock-jaw was apprehended. A friend recommended the application of a beet, pounded fine, to the wound. It was done and the effect was very beneficial. Soon the inflammation began to subside, and by keeping on the crushed beet and changing it for a fresh one as its virtue seemed to become impaired, a speedy cure was effected.

The New York Tribune says a new filibuster force has been organized for the conquest of "No. 6," which means the Island of Cuba. The new force is known as the K. G. C., "Knight of the Golden Circle." There are two legions—10,000 men in each. Head quarters, Baltimore. Each volunteer is to have 6,000 acres of land. For further particulars call at head quarters and see knight in command.

MRS. M. M. DENSLOW,

Having returned from New-York with her usual supply of New Millinery Goods, is now ready to offer to the Public an assortment that will vie with the very best of [illegible] Stock ever before brought into a Batavia market.—True Mrs. D. *did not go to Paris herself*, but got her supply at Importing Houses in New York, who have been long in the trade and who sell to their old customers, who pay, at very reasonable rates, and Mrs. D. being one of that class of customers, is enabled to give her patrons the full benefit of a superb Stock of Goods, purchased of those Houses, where Fashionable Goods are to be had at very small profits. The Public are invited to call and see, after seeking to be supplied elsewhere, among *Importers*, and she feels they will not be inclined to go empty away.—

The cash trade is greatly desired—though responsible persons can have credit from four to six months.

She is fully prepared to execute all orders in this line of traffic, and to prosecute with dispatch, and with all of the neatness, elegance and Fashion, that her reputation has heretofore secured, any work trusted to her care. Her millinery prices are also made to suit the times and interests of the buyer. 266-tf

Latest News.
BY TELEGRAPH.

Arrival of the Star of the West.

NEW YORK, June 13

The steamer Star of the West arrived this morning from Aspinwall June 3d, via Key West. She brings upwards of $1,500,000 in treasure. The main points of her news have been anticipated.

The case in which the San Francisco Bulletin was charged with the publication of obscene libel, for publishing Mrs. Sickles' confession, has been decided against that journal.

The gold mines of Vancouver's were yielding so largely, that parties were leaving Victoria for that locality.

Dates from Valparaiso are of May 19th. A battle was fought on the 29th of April between government troops under Gen. Vidaurri and the troops under Gallo.—The latter were defeated and fled. Loss 2,000 killed.

This likely ended the revolution. The government had opened the northern ports and business was reviving.

Dates from Lima are to May 12th. A slight revolution at Arequipa. No particulars. Guyaquil was blockaded, but it was announced that the blockade would soon be raised.

It is rumored that a Bolivian force had invaded Peruvian territory and that the President had asked for a loan of $5,000,000 and an army of 30,000 which Congress refused.

ST. LOUIS, June 13

The California Overland Mail to the 20th of May arrived last night. The proprietors of the Evening Bulletin were fined $[illegible] each for publishing Mrs. Sickles' confession.

A party of Lieut. Beal's men had been attacked at Utah Springs by the Mohave Indians.

The Governor of Texas had called for the U. S. troops to proceed against the marauders, and three companies of Dragoons were on the way to Forts Washington and Belknap.

Major Van Dorn had an encounter with the Apache Indians and killed 50 to 60, and took 20 prisoners.

A dispatch from Independence says a party of Soldiers had surprised eighty Indians near Pawnee Rock, and killed forty-five including twenty women.

Advices say that Douglas county elected seven Republican delegates to the Constitutional Convention. Bourbon and Lykins counties each five Republicans and one Democrat. Atchinson and Riley have each small republican majorities.

A Back-handed Confession.—Little Lizzie, five years old, is a very good little thing; but one day she was provoked by an elder sister's refusal to surrender a rocking chair to her and hit her, for which she was punished. Shortly afterwards she came to her father and looking up in his face, said:

"Pa I am sorry."

"*Sorry for what my dear?*" asked her parent, softened by the appeal of humility as he took it.

"Sorry Emma wouldn't give me the rocking chair," replied the child.

Papa's countenance took a sudden change at the "soft" appeal.

DR. CODDINGTON'S NEW MEDICAL SALT.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. Coddington's New Medical Salt instead of its being a remedy for all ills, has created only but one, it has but one aim, and accomplishes but one thing, to wit; subdues inflammatory disease, wherever in its form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that while it reduces inflammatory disease, (no other) by producing an equilibrium of the fluids in the body, the want of which is the sole cause of inflamation!

NERVOUS IRRITATIONS! The following forms which the vitalized fluids assume, and many not have sustained, that have more or less fever or pain, are as easily subdued by the *New Medical Salt*, as fire is extinguished by water, to wit: Brain Fever, Headache, rush of blood to Head and Heart, Pain, Inflamed eyes, ears, nose, lungs and liver, Neuralgia Spinal affections, Erysipelas, Bronchitis, Pleurisy, Asthma, Cough Dyspepsia, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. COGGWELL'S New Medical Salt exerts, like the Solar centre, an extraordinary influence over the veins and arteries, resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state as the heat, pain and fever disappear.

DR. COGGWELL'S New Medical Salt dissipates what it claims to do—it does unite in the—equalizes the fluids by removing from the system all arterial and venous obstructions. Descriptive circulars may be obtained from any Druggist who has this valuable medicine for sale.

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this horrible infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla.

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the cure of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BOILS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RESCURFING, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compounded that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting the diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy as sure as simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, confirmed benefits on the afflicted they can never forget, and performed cures too numerous and too remarkable to be forgotten.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. J. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all the fore of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—supersedes all remaining doubt as to the unquestionable value of this Discovery.—Consumption is no longer to be regarded as an incurable calamity.

Many hundreds of physicians have already adopted this treatment with almost marvellous success. Let no time be lost in delay to try it. It relieves but

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preventive
as Vaccination in Small Pox.

"In my own practice I found the remedy fail to produce complete cure in only *two cases* reported to me.

"Out of twenty-two cases in the third or last stage, treated at my Dispensary, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled* in the annals of Medicine."

☞ This Remedy is the most powerful general tonic of blood known, and is certain in effectiveness in all forms of Debility, Pulmonary Affections, Nervous Diseases, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a *fac-simile* signature.

☞ No other can be relied upon as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

☞ Price, $1.00, or three bottles for $2.50, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in two-ounced solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., 43 John Street. is now ready, and will be sent gratis to any Consumptive or Invalid sufferer in the U. S., on receipt of twelve cents to stamps to cover expense of postage. DR. JOHNSON'S
HERB DISPENSARY!

OFFICE 28 MAIN STREET,

(3d door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption.

AND ALL

Diseases of the Urino-Genital Organs.

A CLASS of Maladies prevail to a fearful extent in community, dooming at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, relaxation and exhaustion; Universal or muscular weakening and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, asthma, bronchitis and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, neuralgic pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretion of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now, in ninety-nine out of every one hundred cases, all the above named disorders and a host of others not named here owe their origin primarily to the sexual organs, and arise from morbid enfeeblement and chronic inflammation—a state of morbid irritability, hence the want of success on the part of Old School Doctors.

Dr. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such, that patients can be cured at their own homes without exposure, in any part of the country, from an accurate description of their case by letter, and have the medicines sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a series of Health Rules, and perfect chart of cure, which will be to them a true polar star through life.
